| Project Cost (USD) | \$ 0.12 million |

Project Description

The project will support BDO to develop lending models or products for solar projects and green buildings (GB), and build the in-house capacity of BDO in (a) identifying potential solar financing clients and assessing technical and financial viability of solar projects, (b) identifying potential GB clients and assessing technical and financial viability of GB projects.

This project seeks to catalyze more investments in solar energy and green buildings through strengthening the capacity of BDO Unibank, Inc. to identify potential clients and lend to such projects through product development, risk assessment, and staff training

Investment Description

- International Finance Corporation (IFC)

ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
