Project Description

According to ADB website, ADB is helping Tajikistan upgrade the Golovnaya Hydropower Plant to increase supply of renewable energy to national and regional power systems. The project will refurbish electric and mechanical equipment for power generation and transmission at the plant, which will raise generation capacity to 252 megawatts from 240 MW. This will increase availability of year-round clean power for domestic sales and for export to Afghanistan. The Project will increase the generation capacity and operational efficiency of the power plant.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
