### **Project Description**

These results have been reported to the United Nations Framework on Climate Change Convention (UNFCCC) and have undergone technical assessment. They are now fully UNFCCC compliant. Ecuador will use the results-based payments to invest in additional activities that support the implementation of their national REDD+ action plan. This includes developing policies and institutional management for REDD+; transitioning to sustainable agricultural production systems; sustainable forest management, conservation and restoration; and managing a national REDD+ action plan.

### ACCOUNTABILITY MECHANISM OF GREEN CLIMATE FUND

The Independent Redress Mechanism (IRM) is the independent complaint mechanism for a person or people who have been or believe they are likely to be adversely affected by a project or programme funded by the Green Climate Fund. If you submit a complaint to the IRM, it may seek to address the issues raised by facilitating a problem-solving dialogue or, if that is not possible, conducting an independent investigation into whether the GCF has complied with its environmental and social policies. The IRM is newly created and is still in the process of developing its procedures and website. More information about the IRM and how you can file a complaint is forthcoming. You can contact the IRM at [irm@gcfund.org](mailto:irm@gcfund.org).
