Project Cost (USD)	\$ 0.25 million

Project Description

The objective of the TC is to support the execution of Program PN-L1143, in its first two years, in specific actions to consolidate the Program. This includes: (i) progress in the coordination, preparation and use of information systems; (ii) the analysis of national tests and the elaboration and implementation of a stakeholder evaluation system; and (iii) the preparation of materials and training in language and mathematics to strengthen the work of the facilitators who accompany the teachers in their classrooms, in keeping with the draft plan to work with underperforming schools.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
