## Project Description

The Technical Cooperation (TC) objective is to promote urban development with land-use planning strategies aligned to sustainable mobility in Brazilian cities. Specifically, this TC seeks to deliver sustainable urban plans focusing on sustainable mobility for Brazilian municipalities based on a comprehensive sector diagnosis. These plans will identify integrated urban strategies and the investment needs for sustainable and low carbon urban infrastructure and mobility in cities.

### ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
