Project Description

The objective of Rio Cobre Water Treatment Plant (the "Project") is to treat raw water from the Rio Cobre River, pump it into the newly replaced water pipeline and convey the treated water towards Kingston & St. Andrew, Portmore and Spanish Town in Jamaica to reduce the water shortfall. The Project is designed to replace the aged water pipeline, construct new water treatment facilities, and operate them with the proper maintenance to treat 15 million imperial gallons per day of raw water under a public private partnership agreement (the "Water Purchase Agreement") between the National Water Commission (the "NWC") and the RCWL. Once the project is commissioned, the RCWL will operate and maintain the Project for a period of 23 years, with an option to renew by mutual agreement with the NWC for an additional 5 years.

Subject to due diligence, IDB Invest will provide up to US\$30 million equivalent in Jamaican dollars as a part of syndicated loans for the RCWL. The project cost is approximately US\$75 million in JMD equivalent, and the requested financing amount from the RCWL is up to US\$60 million in Jamaican dollar equivalent by means of syndicated loans. The funds raised will be used to finance, build, and commission the Project.

Investment Description

- IDB Invest (IDBI)

IDB Invest will provide up to US\$30 million equivalent in Jamaican dollars as a part of syndicated loans for the RCWL. The project cost is approximately US\$75 million in JMD equivalent, and the requested financing amount from the RCWL is up to US\$60 million in Jamaican dollar equivalent by means of syndicated loans. ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
