### Project Description

According to IADB website, the objective of this RPG is to develop a prototype system for the protection of the educational trajectories of the most vulnerable populations in Mesoamerica, adapted to the new challenges derived from COVID-19. The prototype will have two complementary elements: (i) the prevention of dropping out of school by monitoring predictors of school dropout and the implementation of immediate support measures for secondary school; and (ii) the generation of a flexible and/or accelerated secondary education service that is adapted to the realities, schedules and individual situations of young people who abandoned the regular educational system.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
