| <b>Investment Amount (USD)</b> | \$ 2.89 million              |

## Project Description

According to the bank website, "The subproject is intended to provide a targeted assistance for ensuring climate change resilience and universal accessibility through enhanced multi-modal integration of the ensuing project, suitable for the context of the RRTS which is envisioned to be a new type of urban transport in India. For this purpose, the subproject will review the existing transit-oriented urban planning approaches of the NCRTC and, where feasible, propose pilot studies for selected station areas or towns. It will also support the use of advanced technologies for infrastructure design and construction process management, specifically, Building Information Modelling (BIM) and dedicated mapping survey technologies."

Responsible ADB Division Transport and Communications Division, SARD  
Executing Agencies  
Ministry of Housing and Urban Affairs  
Nirman Bhawan, Maulana Azad Road  
New Delhi 110 011 India

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
