<b>Investment Type(s)</b>	Advisory Services
<b>Investment Amount (USD)</b>	\$ 0.25 million
<b>Grant Amount (USD)</b>	\$ 0.25 million

---

## **Project Description**

This TC is aimed at closing the deficit gap through an improvement in revenue collection. The client has requested the full amount to be directed to acquiring Support for the Design and Implementation of a National Tax Control Plan at the Internal Revenue Service (SRI) of Ecuador. A well-designed control plan increases revenue in two ways: directly from assessments, interest and penalties; and indirectly through the deterrence of tax fraud

## Contact Information

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
