Borrower	State of Pará
Sectors	Agriculture and Forestry, Climate and Environment, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.50 million
Project Cost (USD)	\$ 0.50 million

Project Description

The Objective of the TC is to structure a new model of innovative financing to deliver emissions reductions and avoided deforestation objectives of the Amazonia Agora State Plan by developing a Payment for Environmental Services (PES) program to be delivered through a payment for results (P4R) transaction mechanism under the Sustainable Territories Platform.

The project will accelerate the development of the methodological framework for implementation of the PES program under the Amazonia Agora Plan. The PES mechanism will include ecosystem, climatic, and regulatory services, to be delivered through a payment for results (P4R) transactional mechanism, in addition to other targets established in state public policy.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
