Voting Date	2018-10-31
Borrower	Government of Cape Verde
Sectors	Education and Health
Investment Type(s)	Loan
Investment Amount (USD)	\$ 10.00 million
Project Cost (USD)	\$ 10.00 million

Project Description

According to bank documents, the objective of the project is to strengthen foundational skills in education and improve the relevance of training programs to the country's strategic development plan.

The proposed operation will build on the key priorities identified within the ESP 17-21 and the Government's PEDS. The proposed operation will be financed through an Investment Project. The project would be supported by three components:

1. Support to the Basic Education reform (US\$6.4 million). Under the first component, the objective will be to support the ESP 17-21 with the expansion of the basic education system from six to eight years. Specific focus will be given to four key areas indicated within the ESP 17-21 as essential to improving the quality of basic education. These are the following: (i) revising the curriculum and pedagogy in line with the basic education reform; (ii) establishing and operationalizing a student assessment system; (iii) supporting teachers and other educational staff in the implementation of the reform; and (iv) preparing the various actors in the system to act with more autonomy and responsibility.
2. Support to demand-based training programs (US\$2 million). The second component will support the Government in operationalizing the restructured Skills Development Fund (SDF). The Project will provide both technical assistance (TA) Subcomponent 3.2) and funding to the restructured SDF (under this component) in the following areas: (a) strengthening the identification of skills needs in two priority industries (the demand side); (b) promoting a training system that is responsive to industry needs (the supply side); (c) establishing a scholarship mechanism that is sustainable and promotes equity and employability; and (d) developing a financing model for the skills development system that is sustainable. This component will finance grants to training providers to deliver demand-driven programs and scholarships to students and trainees to attend priority demand-driven training programs.
3. Component 3: Support to the Education and Skills Development Reforms and Project Management (US\$ 1.6 million). This component will finance TA to support activities planned under Components 1 and 2, as well as specific costs related to Project management.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at:

<http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
