## Project Description

According to ADB website, the project entails construction and operation of the first utility-scale solar power project in Cambodia with capacity of 10 MWp DC. The Project is located in Bavet City, Svay Rieng Province, near the border with Viet Nam. The Project went through an international competitive bidding process which seeks public-private partnerships that are transparent, competitive, and provide a level playing field. The Project is therefore expected to unlock Cambodias underutilized renewable energy resources and set an important precedent in the renewable energy sector in the country. A consortium led by Sunseap, a leading solar developer from Singapore, has won the bid with a highly competitive tariff which is lower than the estimated average electricity supply cost in Cambodia.

---

## Investment Description

- Asian Development Bank (ADB)

## Contact Information

Project Officer: Hashizume, Shuji

Private Sector Operations Department, ADB

No contact information provided at the time of disclosure.

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
