ADB-41504-026

Town Electrification Investment Program, Tranche 1 (Additional
Financing)

Quick Facts

Countries	Papua New Guinea
Financial Institutions	Asian Development Bank (ADB)
Status	Approved
Bank Risk Rating	U
Voting Date	2015-12-09
Borrower	Government of Papua New Guinea
Sectors	Construction, Energy, Hydropower
Investment Type(s)	Grant
Investment Amount (USD)	\$ 4.80 million
Project Cost (USD)	\$ 5.20 million

Project Description

The additional financing is integral to implementation of Tranche 1 subprojects; complementarity would be lost if deferred to Tranche 2. The proposed grant will be administered by ADB as part of the overall project implementation. The existing TEIP Tranche 1 Project Management Unit (PMU) will be responsible for project implementation. The proposed additional financing will include (i) extension of the three distribution grids, and (ii) rehabilitation of the Lake Hargy Hydropower Plant. The distribution grid extension will connect an additional 2,500 households in three provinces (i) West New Britain (1,200 households), (ii) Northern Province (700 households), and (iii) Autonomous Region of Bougainville (600 households). Rehabilitation of the Lake Hargy Hydropower Plant will include minor refurbishment of the power plant control systems and mechanical equipment to increase generation capacity from 600kW to 1,500 kW in order increase generation capacity to supply the proposed additional connections. The proposed additional financing will therefore expand the social and economic benefit of TEIP Tranche 1 and scale up the project benefits in new geographical areas to additional beneficiaries.

Investment Description

- Asian Development Bank (ADB)

Initial funding for this project comes from a loan financing of \$120 million from the Asian Development Fund and Ordinary Capital Resources, as well as from \$30 million from the Government of Papua New Guinea. The additional funding for this project comes from a grant from the Government of New Zealand not exceeding \$5 million.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at:

<http://www.adb.org/site/accountability-mechanism/main>
