## Project Description

IDB: This technical cooperation aims at further deepening the partnership among countries in Latin America and the Caribbean (LAC) and China. To that end, the program will finance capacity building and policy and knowledge dialogues in a broad range of topics of common interest on institutional development. Through these activities, the two regions will deepen their linkages towards one that is mutually beneficial and constructive for sustainable and long term growth. The TC also seeks to further strengthen the existing partnership with Chinese institutions such as the Chinese Academy of Social Sciences (CASS) and to facilitate the formation of new partnerships through the proposed activities.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
