### **Project Description**

the principal objective of this technical cooperation is to develop a comprehensive set of knowledge products to support countries in the region to address the impacts of migration, and to leverage the positive effects on economic growth and development. This objective will be achieved with the generation and dissemination of knowledge products with a strong focus on applying innovative approaches to data collection on the migration phenomenon, evaluating the impact of migrants in countries of origin, transit and destination and identifying good policy practices on migration to guide the Bank's operational work in this area. Special attention will be given to sector specific solutions to challenges such as access to identification and documentation, to basic services, to social services, and expanding economic opportunities. The TC will also support operational focus groups and roundtables to glean lessons and good practices and engage in partnerships with relevant institutional actors.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
