<b>Investment Type(s)</b>	Grant
<b>Investment Amount (USD)</b>	\$ 0.72 million
<b>Project Cost (USD)</b>	\$ 0.72 million

---

### Project Description

This project aims to promote more sustainable water and sanitation services at the rural and municipal levels across Latin America and the Caribbean. It accomplishes this through defining a model of technical assistance for the post-construction phase for providers in rural areas, developing a model for monitoring of rural services and promote their use at the national, regional and municipal levels, and promoting good practices in municipal management of water and sanitation services.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
