### Project Description

According to the bank, the general objective of this Technical Cooperation is to contribute to the Revitalization of the Priority Historic Centers (CH) of Peru. The Government of Peru has designed a Program that aims, through strategic projects of infrastructure rehabilitation and economic revitalization, to reverse the process of deterioration that currently affects the CH of the country and mitigate, based on measures for urban resilience, the effects caused by climate change in them. The specific objectives of the cooperation are the following: (i) to support the realization of the feasibility studies required by the Government to make the Program viable; (ii) support the development of instruments required for the preparation and management of the Program; (iii) develop pre-feasibility studies of priority projects in participating cities.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
