Status	Active
Bank Risk Rating	U
Voting Date	2025-07-09
Borrower	Government of Dominican Republic, Honduras and Panama
Sectors	Law and Government, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.25 million
Project Cost (USD)	$ 0.25 million

Project Description

According to the IADB, the general objective of this Technical Cooperation (TC) is to strengthen the institutional and technological capacities of Latin American and Caribbean (LAC) governments to increase transparency, prevent and control corruption, strengthen financial integrity, and improve the delivery of public services, both at the national and subnational levels. This will be achieved through the adoption of instruments and solutions that are part of the MapaInversiones1 and Knowledge for Results (K4R)2 initiatives, which serve as foundational pillars to promote strategic reforms in transparency, accountability, and efficiency in the delivery of public services. The specific objectives are: (i) to integrate, manage, and use public data in a transparent and traceable manner, through digital solutions based on Artificial Intelligence (AI) and data visualization tools; (ii) to improve monitoring, evaluation, and financial integrity systems to support evidence-based decision-making and strengthen accountability; and (iii) to promote institutional innovation through the design and validation of scalable operating models focused on concrete results in the delivery of public services.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
