Project Description

PT. Bank Tabungan Pensiunan Nasional Tbk., (“BTPN” or the “Bank”) is a mid-size commercial bank and is a valued client of IFC since 2009. The Bank uses a unique business model combining access to finance and access to training, serving the high potential mass market and targeting low income pensioners, the micro-small business segments and women entrepreneurs at the base of the pyramid in Indonesia. The project is a part of IFC’s inclusion agenda in Indonesia and proposes to extend loans in Indonesian Rupiah which will be used to (i) fund the growth of the Bank’s micro-small business finance activities and expansion of the Bank’s subsidiary, BTPN Syariah’s “productive poor” business line which is targeted at women entrepreneurs at the base of the pyramid, and (ii) strengthen its funding base in order to reduce asset and liability mismatch with a longer tenor financing package.
