## Project Description

The Project consists of the construction, operation and maintenance of a 99 MW wind farm and its associated facilities including a 132kV 37km transmission line to be located in the southern region of the province of Buenos Aires, 36km northwest of the city of Bahia Blanca, Argentina. CP La Castellana S.A.U, a vehicle fully owned by CPSA, signed a 20-year power purchase agreement with the wholesale electric market administrator ("CAMMESA") under the RenovAR tender program to inject energy to the national interconnection system ("SADI") via the 132 kV Chañares substation, at a bidding price of US\$61.5/MWh.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
