Project Description

According to the IADB, the objective of this technical cooperation is to support the Ministry of Education of Ecuador in its educational transformation plan. Technical support focuses on both pedagogical issues, such as the new curriculum reform implemented by the Ministry, and management aspects, for example, improving the monitoring processes of educational resources at the local level, especially the allocation of teachers. Additionally, this technical cooperation will provide support to the National Institute of Educational Evaluation to improve the production of data on educational quality in Ecuador in order to inform policies that will drive educational transformation in the country.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
