### Project Description

According to ADB website, the TA seeks to demonstrate climate resilient green growth options in critical watersheds in the lower Marikina river basin, Camarines Sur and Davao Oriental and strengthen the capacity of local government units (LGUs) to mainstream climate change concerns into development planning. Priority is given to watersheds because of their role as 'water support system' for both upstream and downstream communities such as domestic water consumers, irrigation water users, and hydropower companies. The TA will create a green growth road map for three critical watersheds by considering five dimensions:

1. Economic development
2. Resilience to climate change
3. Biodiversity, ecosystems and social development
4. GHG emissions
5. Poverty alleviation

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
