Project Description

According to the IADB, the objective of the present TC is to consolidate and strengthen rural water and sanitation governance and service sustainability at the regional level, with a particular focus on SIRWASH countries, by enhancing institutional capacities, fostering knowledge exchange, and supporting the adoption of normative instruments, monitoring systems, and planning tools tailored to rural contexts. The operation will promote collaboration among sector stakeholders regionally and globally, and advance regulatory frameworks and sustainability strategies with a focus on gender, resilience, and South-South cooperation.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
