### **Project Description**

Provide the beneficiaries of the entities in charge of the construction of road tunnels of Cristo Redentor and Paso de Agua Negra between Argentina and Chile, to know similar projects that are being developed in Colombia at the moment, in Medellín, in the highway of Bogota To Villavicencio and the tunnel of the Linea. So that this allows to extend the capacities of the beneficiaries ones for the development of its projects and to compile experiences of other countries.

### Investment Description

- Inter-American Development Bank (IADB)

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
