Project Description

According to the CDB, the project will enhance road safety along a demonstration corridor from Belize City to the border with Mexico, by improving road safety management; increasing the awareness and understanding of risks, improving traffic law enforcement; and enhancing post-crash response. Through parallel investment by the Government, the safety of the road infrastructure along this corridor will also be improved.

The Technical Assistance is geared towards the capacity building on the provision of mental health and psychosocial support services for persons who work at the front-line providing care to victims of road crashes.
