<b>Project Cost (USD)</b>	\$ 783.47 million

---

## Project Description

The project concerns the development of a digital identity (eID) infrastructure in Nigeria and the supply of a biometric identity to all Nigerian citizens. The project will provide a platform for economic development and reduce poverty, a root cause of migration.

Identification is central to efficiently deliver important government services to its population and to develop a well balanced functioning society: education, health and social safety, transportation, the sale of industrial and agricultural goods, financial inclusion and elections all rely for instance on good identification. The project will support the scaling up of the country's digital economy: access to mobile telephones, E-banking, and the provision of other innovative products and services to consumers. In addition, it will support the Government's efforts to strengthen fiscal management and to promote efficiency, good governance and transparency.

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form>, via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

[http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at:

<http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
