Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Borrower	Regional
Sectors	Technical Cooperation
Investment Amount (USD)	\$ 0.25 million

Project Description

In order to guarantee the sustainability of the DIME (Direct Internet Message Encapsulation) platform, this new phase of the project will institutionalize DIME, by selecting an operator with technical know how and regional legitimacy, which will receive technical assistance to transfer developed methods and processes. This phase also seeks development and promotion of country level use of a comprehensive methodology to evaluate high financial impact medications.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
