Status	Active
Bank Risk Rating	B
Voting Date	2017-12-15
Borrower	Government of China
Sectors	Agriculture and Forestry, Industry and Trade
Investment Type(s)	Loan
Investment Amount (USD)	\$ 150.00 million
Project Cost (USD)	\$ 198.28 million

Project Description

According to the bank document, the project objective is to improve the distribution systems of selected farm products in participating counties of Jiangxi. The project will increase the efficiency and productivity of production logistics and farm systems, including the integration of systems to collect, sort, package and store agricultural products. It will support farmer cooperatives in their purchase of business equipment, access to markets, product certification, and e-commerce development. For the first time, the project will use a partial risk guarantee mechanism to improve farmers' access to credit from local commercial banks. The project will also improve the physical structures, services and management systems of the farm produce markets and distribution centers, to increase their efficiency, provide value added benefits and reduce waste of farm produce. Technical assistance and training will be provided under the project.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: <http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
